EDUCATION

Bachelor of Technology: Computer Science Engineering, Expected in 06/2028

Vellore Institute of Technology Bhopal (VITB) - Bhopal, India

Came First in Google Olympics 2.0 by GDG (Google Developer Community) club.

PROFESSIONAL SUMMARY

Ambitious second-year B.Tech Computer Science student at VIT Bhopal University, specializing in Generative AI and Agentic AI. Proven experience in developing LLM-powered applications, RAG pipelines, and autonomous AI agents using C++, Java, and Python. Committed to addressing complex challenges with a solid foundation in Data Structures and Algorithms, showcasing a passion for innovative technology solutions. Eager to contribute to cutting-edge projects that drive advancements in artificial intelligence.

SKILLS

- **Backend Development:** Python, Node.js, RESTful APIs
- **AI Automation:** n8n, AI Agents, NLP
- **Tools:** Text-to-Speech, Git, Ubuntu Linux
- **Databases:** Vector DBs, Supabase, SQL
- **LLM:** RAG Pipelines, Integration
- **Multitasking Abilities**

ACHIEVEMENTS & HACKATHONS

- | | |
|---|----------|
| • Hack2Skill Hackathon — Participant — Innovation & Problem Solving | Feb 2026 |
| • VITB Campus Hackathon — Participant — Project Development | Jan 2025 |

CERTIFICATIONS & WORKSHOPS

- | | |
|---|----------|
| • LLMs using Python Workshop — Techfest, IIT Bombay | Dec 2025 |
| • Cloud Computing (NPTEL – SWAYAM) — IIT Kharagpur | Jan 2026 |
| • Prepare Data for ML APIs on Google Cloud — Google | Dec 2025 |
| • Machine Learning with Python — IBM (ID: F1BT7A4ZJJYN) | Nov 2025 |

LANGUAGES

C++, Python, Java, SQL

PROJECT

Cyphraxi — AI-Powered Study Engine

- Developed a RAG-based Q&A system using Gemini Api and FAISS for efficient document retrieval.
- Implemented custom chunking and ingestion pipelines to process raw notes into actionable AI context.

Voice Calculator

- Built a real-time voice-activated tool to process and solve complex mathematical expressions.

AutoDemo Agent

- Engineered an autonomous agent that generates product demos from GitHub URLs using LLM scripting.
- Built a multi-stage pipeline involving automated screen recording and AI voiceover synthesis.

Personal Portfolio

- Developed a responsive developer portfolio using modern web technologies to showcase AI projects.
