EDUCATION

VIT Bhopal University 2024–2028
B.Tech Computer Science Engineering

TECHNICAL SKILLS

Programming: Python, Java, C++, SQL, JavaScript
AI/ML: GenAI, Agentic AI, RAG, GraphRAG, LangChain, LangGraph, FAISS, LLMs, NLP
Frontend: React.js, HTML, CSS, Vite
Backend: Flask, FastAPI, REST APIs
Automation: n8n, MCP, Gmail API, Airtable
Tools: Git, GitHub, Docker, Linux, GCP, Vercel

EXPERIENCE

Stats O' Locked Club, VIT Bhopal University
Technical Co-Lead Jul 2026–Present
Technical Core Member 21 Feb 2025–Jul 2026

- Promoted to Co-Lead for leadership and technical contributions.
- Led a team of 7+ technical members to deliver technical solutions for club events within deadlines.
- Developed and maintained the official club website to improve event visibility and member engagement.
- Automated certificate generation, significantly reducing manual effort and improving event operations.
- Collaborated with management and design teams.

PROJECTS

Enterprise IT Copilot May 2026

- Designed an Enterprise AI Copilot to reduce employee search time across enterprise documentation.
- Combined GraphRAG, BM25, FAISS and reranking to improve contextual retrieval quality.

Study.AI – AI Powered Study Engine Jan–Feb 2026

- Addressed inefficient manual note searching by building a RAG-based AI study assistant for contextual question answering.
- Engineered an automated ingestion pipeline using Gemini API and FAISS, transforming study materials into a searchable semantic knowledge base.

AI Email Automation Assistant Jun 2026

- Eliminated repetitive email management by automating Gmail replies, categorization and logging using AI.
- Integrated Gemini API with n8n workflows to generate contextual responses while maintaining an Airtable audit trail.

POSITIONS OF RESPONSIBILITY

Technical Co-Lead, Stats O' Locked Club Jul 2026–Present
Resource Core Member, Insights Club 31 Jan 2026–Present

ACHIEVEMENTS

• 1st Rank – Google Olympics 2.0 (GDG VIT Bhopal)

CERTIFICATIONS

- Google Cloud Skill Badge – Prepare Data for ML APIs
